## 2nd Milestone

### Building Blocks

# Preparatory Study on Textile Products 2nd Milestone

## EU Ecolabel – Product Groups

### Article 1

1. The product group 'textile products' shall comprise:
  - (a) Textile clothing and accessories: clothing and accessories consisting of at least 80 % by weight of textile fibres in a woven, non-woven or knitted form.
  - (b) Interior textiles: textile products for interior use consisting of at least 80 % by weight of textile fibres in a woven, non-woven or knitted form.
  - (c) Fibres, yarn, fabric and knitted panels: intended for use in textile clothing and accessories and interior textiles, including upholstery fabric and mattress ticking prior to the application of backings and treatments associated with the final product.
  - (d) Non-fibre elements: zips, buttons and other accessories that are incorporated into the product. Membranes, coatings and laminates.
  - (e) Cleaning products: woven or non-woven fabric products intended for the wet or dry cleaning of surfaces and the drying of kitchenware.
2. The following products are not included in the product group 'textile products':
  - (a) products that are intended to be disposed of after a single use;
  - (b) floor coverings, covered by Commission Decision 2009/967/EC (1);
  - (c) fabrics that form part of structures intended for outdoor use.
3. Garments, fabrics and fibres that containing the following are excluded from the product group.
  - (a) electrical devices or which form an integral part of electrical circuitry;
  - (b) devices or impregnated substances designed to sense or react to changes in ambient conditions.

## 2nd Milestone

### Where are we now?

Milestone	Topic to be addressed	Date
Initial questionnaire	Definitions, Scope, Market analysis, User Behaviour, Ecodesign aspects, EU Ecolabel, EU Green Public Procurement	30 March 2023 – 8 May 2023
1 <sup>st</sup> milestone	Scope, market, user behaviour, current EU Ecolabel criteria, current EU Green Public Procurement criteria	23 February 2024 – 22 April 2024
2 <sup>nd</sup> milestone	Technologies, framework and data gaps of environmental and economic model, and a questionnaire about substances of concern	14 November 2024 – 10 February 2025
3 <sup>rd</sup> milestone	Analysis of base cases and design options	End of Q2 2025
4 <sup>th</sup> milestone	Policy scenarios, and elements to be included in the digital product passport	Q4 2025

# Preparatory Study on Textile Products 2nd Milestone

## Possible Ecodesign Criteria

- Physical durability, which includes physical durability, reliability and reusability;
  - Maintenance;
  - Repairability, which includes repairability, upgradability, possibility of refurbishment, and possibility of remanufacturing;
  - Generation of waste;
  - Recyclability and recycled content;
- 3** Environmental impacts, which include environmental impacts, energy use and energy efficiency, water use and water efficiency, resource use and resource efficiency; and
- 2** Presence of substances of concern.

## 1 Classification / Distinction of technologies

- The Base Case of technologies (BC), which is the average product on the market.
- The Best Available Technologies (BAT), which have the most ambitious performances available on the market. BAT are implemented at scale.
- The Best Not yet Available Technologies (BNAT), which have the most ambitious performances, but they are not implemented at scale, therefore they are considered not available on the market.
